

# Spring Fling

## Digital Citizenship

MASL invites you to upgrade your status as a Digital Citizen in the 21<sup>st</sup> Century by joining us on April 2<sup>nd</sup> at Ellsworth Middle School for a daylong event showcasing resources, programs and colleagues who are using these programs effectively in their schools and districts. Hear Jeff Whipple, Technology Learning Mentor for School District 18 in Fredericton New Brunswick speak about Digital Footprints and discuss the possibilities of the Overdrive program for school libraries with James Jackson Sanborn. In addition we hope to have someone for MLTI to bring their perspective to the table. It's your opportunity to ask questions and seek advice from those in the know.

This workshop will provide 5 contact hours as well as an opportunity to network with colleagues, visit with educational exhibitors and tour the new Ellsworth Elementary/Middle School. There will also be a time of remembrance and plenty of giveaways to make your trip worthwhile. Since we'll be close to Acadia National Park you may want to stay over and spend a day in the park when it's not quite so busy. We've arranged for our conference rate at the Ellsworth Comfort Inn to extend through Saturday night to help out. There are also lots of other terrific possibilities to make your trip to the Ellsworth area not just educational but also an extra special treat. So get ready to fling yourself into Spring with us.

You'll find a tentative schedule and registration form below and you can check our website [www.mainelibraries.org](http://www.mainelibraries.org) for updates as April 2<sup>nd</sup> gets closer. If you have questions contact the MASL office: [masl@gwi.net](mailto:masl@gwi.net) or 207-441-1410.
